II. SCOPE OF WORK

1. The State shall submit a program containing the aforementioned project to FHWA with the recommendation that it be approved for construction.

a. If such project is approved for construction by the FHWA and the funds are available for construction, the City will and does hereby designate the State as authorized agent for the City. The State hereby agrees to be authorized agent for the City, and with the aid and consent of the City and the FHWA will proceed to advertise for, receive and open bids, and subject to the concurrence of the City and the FHWA, enter into a contract with a firm on behalf of the City to whom the award is made for the construction of the project; such project to be performed, completed, accepted and paid for in accordance with the instructions and requirements of the City and the Standard Specifications for Road and Bridge Construction of the Arizona Department of Transportation. The State will enter into a Project Agreement with the FHWA on behalf of the City covering the work embraced in said construction contract and will request the maximum federal funds available, including construction engineering and administration costs. Should costs exceed the maximum federal funds available, it is understood and agreed that the City will be responsible for any overage.

b. Should unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the City shall be obligated to incur and will pay for said increased costs.

2. Prior to the solicitation of bids, the City shall deposit funds with the State in the amount determined to be necessary to match federal funds in the ratio required. Upon completion of the construction contract, the State will return to the City any part of the funds deposited by the City remaining after the City's pro rata share of the cost, as finally fixed and determined by the FHWA, has been paid.

3. The City shall acquire the necessary right-of-way and hereby certifies that all necessary rights-of-way have been or will be acquired prior to advertisement for bid.

4. The City shall remove from the proposed right-of-way all obstructions or unauthorized encroachments of whatever nature, either above or below the surface of the roadway, and hereby certifies that all obstructions and encroachments have been or will be removed there from, prior to the start of construction.

5. The City shall not permit or allow any encroachments, except those authorized by permit, upon, or private use of, the right of way. In the event of any unauthorized encroachment or improper use, the City shall take all necessary steps to remove or prevent any such encroachment or use.

6. Upon completion of construction, the City shall provide for, at its own costs and as an annual item in its budget, proper maintenance.

III. MISCELLANEOUS PROVISIONS

1. The State assumes no financial obligation or liability under this agreement. The City assumes full responsibility for the design, plans and specifications, reports, the engineering in connection therewith, and the construction of the improvements contemplated, cost over-runs and construction claims. It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the City and that the City hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the City, any of its agents, officers and employees, or any of its independent contractors. Costs incurred by the State, any of its departments, agencies, officers or employees shall include in the event of any action, court costs, and expenses of litigation or attorneys' fees.

2. The cost of the design, construction and construction engineering work covered by this agreement is to be borne by FHWA and City, as fixed and determined by the State, the City and FHWA as stipulated in this agreement. Therefore, City agrees to furnish and provide the difference between the total cost of the work provided for in this agreement and the amount of federal aid received.

3. This agreement shall remain in force and effect until completion of the work; provided, however, that any provisions in this agreement for maintenance shall be perpetual, unless assumed by another entity.

4. This agreement shall become effective upon filing with the Secretary of State.

5. This agreement may be cancelled in accordance with Arizona Revised Statutes Section 38-511.

6. The provisions of Arizona Revised Statutes Section 35-214 are applicable to this contract.

7. In the event of any controversy, which may arise out of this agreement, the parties hereto agree to abide by required arbitration as is set forth for public works contracts in Arizona Revised Statutes Section 12-1518.

8. Non-Discrimination. The contractor shall comply with Executive Order 99-4, which mandates that all persons, regardless of race, color, religion, sex, age, national origin or political affiliation shall have equal access to employment opportunities, and all other applicable state and federal employment laws, rules and regulations, including the Americans With Disabilities Act. The contractor shall take affirmative action to ensure that applicants for employment and employees are not discriminated against due to race, creed, color, religion, sex, age, national origin or political affiliation or disability.

9. Non-Availability of Funds. Every payment obligation of the State and the City under this contract is conditioned upon the availability of funds appropriated or allocated for the payment of such obligation. If funds are not allocated and available for the continuance of this contract, this contract may be terminated by the State and the City at the end of the period for which the funds are available. No liability shall accrue to the State and the City in the event this provision is exercised, and the State and the City shall not be obligated or liable for any future payments or for any damages as a result of termination under this paragraph.
